

AUTISM AWARENESS MONTH: RESOURCE SHARING & SUPPORT LUNCH

Come Join Us!

Since receiving my son's diagnosis, I've learned a lot, made mistakes, and have much more to understand. Folks with autism are unique but there is considerable support we can gain from each other. This event is intended to help:

- gain guidance from knowledgeable co-workers
- develop a network of supportive individuals who have similar experiences
- get connected to appropriate resources
- receive coaching in using best practices in work and life.

Through this initiative, I'd like to help address the support and training that me and many of my co-workers need and desire.
