

AFL-CIO management wants the OPEIU Local 2 unit to accept up to 12 days of furloughs per year under Management Rights. 12 furlough days = a 4-5% wage cut per employee.

Under this language, management doesn't need to justify the furlough. There's no shared sacrifice or drop-dead date.

We have already accepted a wage freeze for 3 more years. We are already AFL-CIO's lowest-paid employees. Meanwhile, management recently gave themselves \$4,000 bonuses and others \$2,750.

**Ask President Trumka and Secretary-Treasurer Shuler:
What is the justification?**

**"Stop playing politics with our lives.
It's unnecessary and it has to end."**

Secretary-Treasurer Shuler at a rally protesting the furlough of government employees, January 19, 2019
